

The image shows a sequence of four screenshots from an Android phone, illustrating the steps to connect to the BYOD2017 network and access the login page.

Screenshot 1: The Wi-Fi settings screen is shown. The 'BYOD2017' network is highlighted with a blue box and the text "Tap on 'BYOD2017'".

Screenshot 2: The BYOD2017 network configuration screen is shown. The 'EAP method' is set to PEAP. A blue box contains the text "Enter your student number and password then tap 'Connect'". The 'Identity' field is filled with '001234'. The 'Password' field is masked with dots. There are 'CANCEL' and 'CONNECT' buttons at the bottom.

Screenshot 3: The Google Chrome browser address bar is shown with the URL 'smoothwall/clogin/'. A blue box contains the text "Open Google Chrome and navigate to smoothwall/clogin/".

Screenshot 4: The login page for the BYOD2017 network is shown. It features the Guilbsborough Academy logo and the text "Please download our certificate to use SSL on our network." Below this, there is a "Logout" button, a "Username:" field, a "Password:" field, and a "Login" button. A blue box contains the text "Tap on 'Click here to download the HTTPS Inspection certificate'".
